

U.S. Trade with sub-Saharan Africa, January-December 2016

U.S. total trade (exports plus imports) with sub-Saharan Africa (SSA) totaled \$33.7 billion, an 8.5% decrease from \$36.9 billion in 2015. While U.S. imports from SSA rose in 2016, the fall in U.S. exports was greater, resulting in the decrease in total trade. U.S. trade with SSA accounted for 0.93% of U.S. total trade with the world.

U.S. exports to SSA totaled \$13.6 billion, a 24.5% decrease from \$18 billion in 2015, and accounted for 0.9% of total U.S. exports to the world. Top exports were machinery for digging/construction, aircraft, and motor vehicles. The drop in exports to SSA in 2016 was driven by a 39% decrease in sales of oil, a 38% decrease in sales of vehicles, a 32% decrease in sales of aircraft, and a 31% decrease in sales of machinery parts. The top five Sub-Saharan African destinations for U.S. exports were South Africa, Nigeria, Angola, Ghana, and Ethiopia. U.S. exports to South Africa dropped by 14.2%, to Nigeria by 45.5%, to Ghana by 12.6%, and to Ethiopia by 46.8%, while U.S. exports to Angola increased by 9.4%, due to a large sale of aircraft.

U.S. imports from SSA totaled \$20.1 billion, a 6.9% decrease from \$18.7 billion in 2015, and accounted for 0.9% of total U.S. imports from the world. Top imports were oil (90% crude), diamonds and platinum, vehicles, and cocoa beans. The drop in imports from SSA was driven by a 50% decrease in mineral fuel and oil imports (mostly crude oil), a 37% decrease in diamond imports, and a 36% decrease in iron and steel imports. The top five SSA sources of imports to U.S. were South Africa, Nigeria, Angola, Côte d'Ivoire, and Chad. U.S. imports from Nigeria rose by 118% (primarily crude oil), from Côte d'Ivoire by 13.2% (primarily cocoa), and from Angola by 1.8% (crude oil), while imports from Chad decreased by 31% and from South Africa by 7.6%.

U.S. imports from SSA under the African Growth and Opportunity Act (AGOA) totaled \$9.3 billion, a 35% decrease from less than the previous year, and accounted for 49.6% of total U.S. imports from SSA. ¹ The decrease in AGOA imports was mainly due to a 48% decrease in petroleum product imports. Despite this decrease in imports of petroleum products, they continued to account for the largest portion – 55.6% – of all of AGOA imports. Excluding fuel products, AGOA imports in 2015 totaled \$4.1 billion, decreasing by 6% from 2014. AGOA imports of transportation equipment increased by 5.4%, textiles and apparel increased by 0.1%, minerals and metals decreased by 36.7% percent, and agricultural products decreased by 0.3%. However, also of note is an increase in imports of miscellaneous manufactures by 38.2%. The top five AGOA beneficiary countries were South Africa, Angola, Chad, Nigeria, and Kenya.

_

¹ AGOA imports are imports for consumption, while all other import figures are general imports. Imports for consumption include only those goods as they enter the U.S. economy for consumption. General imports include all goods as they cross the U.S. border, including those destined for bonded warehouses or foreign trade zones.
