What is NEXUS?

The NEXUS program allows pre-screened travelers expedited processing when entering the U.S. and Canada. Program members use dedicated processing lanes at designated northern border ports of entry, NEXUS kiosks when entering Canada by air, and Global Entry kiosks when entering the U.S. via Canadian preclearance airports. NEXUS members also receive expedited processing at marine reporting locations.

How Does the NEXUS Program Work?

At land border crossings, program participants proceed to dedicated NEXUS only lanes and present their NEXUS photo-identification cards. All occupants of the vehicle must be enrolled in NEXUS to utilize the dedicated lanes.

Additional Benefits of Global Entry included with NEXUS

Individuals approved to participate in NEXUS receive photo identification cards that allow them to receive expedited passage at NEXUS-dedicated lanes at the land borders (both into the U.S. and Canada), NEXUS kiosks at airports when entering Canada, at Global Entry kiosks when entering the U.S. (both in the U.S. and at preclearance locations) and by calling a marine telephone reporting center in the marine environment to report their arrival into the U.S. or Canada. NEXUS members who are U.S. citizens, U.S. Lawful Permanent Residents, or Canadian citizens will also receive the benefits of TSA Pre-Check.
