CGI

Helping North America out-compete the world

CGI Group Inc., the world's fifth largest IT and business process services company. Headquartered in Montréal, Québec, CGI serves business and government clients around the world, including airlines, financial institutions, energy companies, utilities, manufacturers, and pharmaceutical companies.

The company's integrated North American footprint includes more than 11,000 people in fifty offices across the U.S., spanning 23 states and the District of Columbia.

CGI's investments create jobs that support local communities. CGI operates four Onshore IT Services Delivery Centers in Belton, Texas; Lebanon, Virginia; Troy, Alabama; and Athens, Ohio, creating 1,000 jobs in these communities. A fifth center at the University of Louisiana will triple the size of the University's Computing and Informatics undergraduate program and is expected to create as many as 400 new IT jobs in Lafayette.

Through their American-headquartered CGI Federal and Stanley divisions, CGI provides extensive services to the United States' federal government. The company serves over 100 American federal agencies, including NASA,

the Departments of Defense and Homeland Security as well as a number of Canadian government departments. Expertise developed through operations on both sides of the border — in areas such as training, cloud computing, and cyber security — has helped CGI to deliver assistance and know-how to our civilian, military, and intelligence agencies.

CGI MEANS JOBS

CGI employs over 68,000 people in 40 countries
