

Global Steel Trade Monitor

Steel Exports Report: Belgium

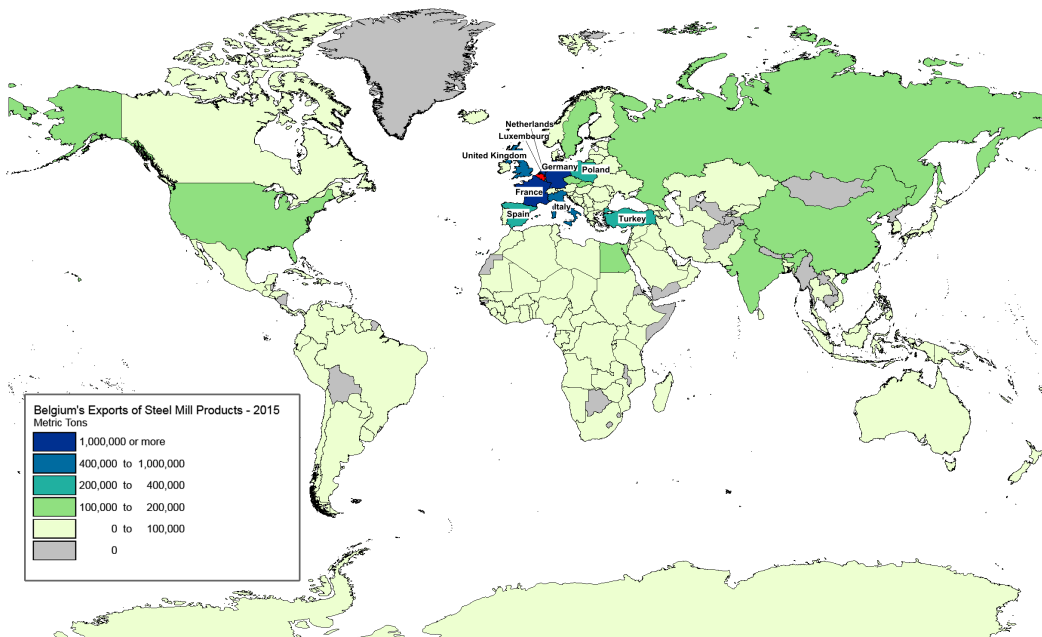

September 2016

Background

Belgium was the world's eighth-largest steel exporter in 2015. In year to date 2016 (through June), Belgium exported 8.6 million metric tons of steel, a 7.9 percent increase from 7.9 million metric tons in YTD 2015. Belgium's exports represented about 3.4 percent of all steel exported globally in 2015. The volume of Belgium's 2015 steel exports was almost equal to the world's seventh-largest exporter, Italy, and just under one-seventh of the volume shipped by the world's largest exporter, China. In value terms, steel represented just 3 percent of the total amount of goods Belgium exported in 2015.

Belgium exports steel to more than 190 countries and territories. The nine countries labeled in the map below represent Belgium's top steel markets, receiving more than 200 thousand metric tons each and accounting for 85 percent of Belgium's steel exports in 2015.

Belgium's Exports of Steel Mill Products - 2015

Data Source: Global Trade Atlas; Copyright © IHS Global Inc. 2016. All rights reserved.

Quick Facts:

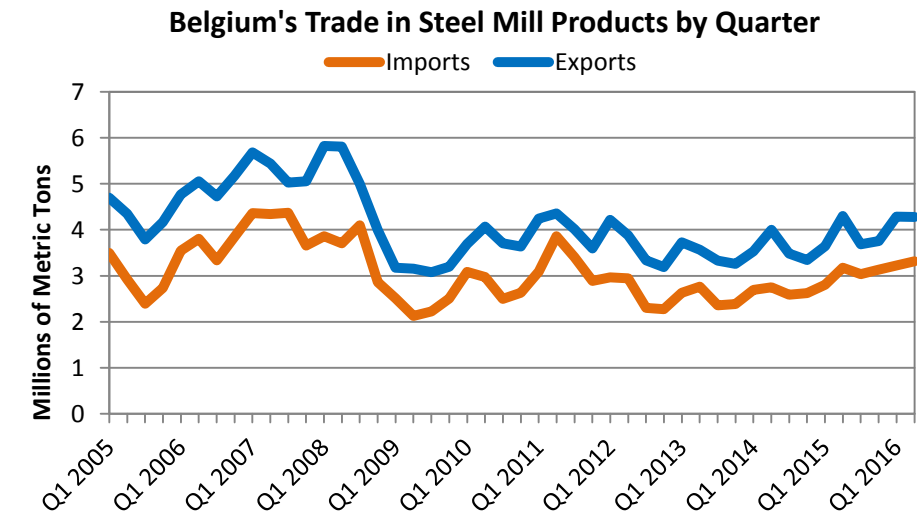

- World's eighth-largest steel exporter: 8.6 million metric tons (YTD 2016)
- 36% steel export growth since Q2 2009
- Exports as a share of production at 220.5% in YTD 2016
- YTD export volume up 7.9% while export value down 9.4%
- Top three markets: Germany, France, Netherlands
- Largest producers: ArcelorMittal, NLMK, and Aperam
- 2 trade remedies in effect involving steel mill imports from Belgium; 6 trade remedies in effect involving steel mill imports from the European Union

Steel Exports Report: Belgium

Steel Trade Balance

Over the past 10 years, Belgium's steel imports and exports have moved roughly in tandem, with exports totaling between 3 and 6 million metric tons more steel per year than imports.

After a sharp decline of 41 percent from 2007 to 2009, Belgium's steel exports have somewhat recovered, growing 36 percent between Q2 2009 and Q2 2016. In YTD 2016, Belgium's steel trade surplus amounted to 2 million metric tons.

Source: IHS Global Trade Atlas

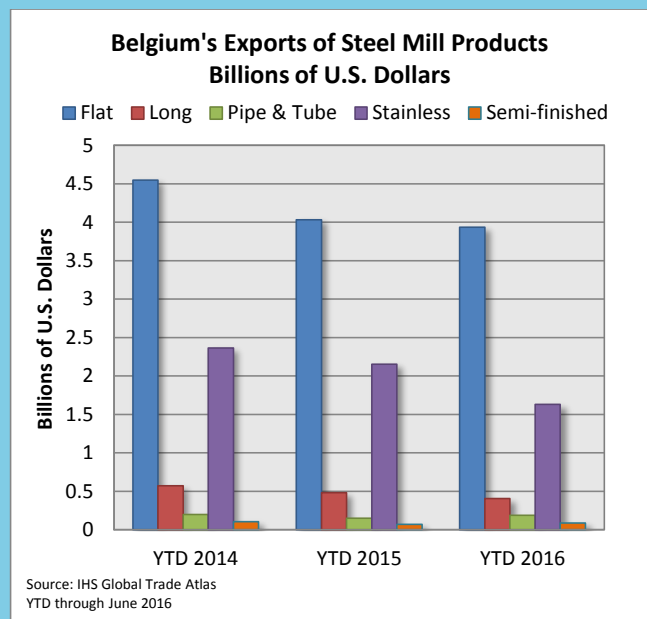

Export Volume, Value, and Product

Belgium's steel export volume has been on the rise since 2013. Exports totaled 15.4 million metric tons in 2015, an increase of 7.1 percent from 2014, and YTD 2016 exports were up 7.9 percent compared to YTD 2015, from 7.9 million metric tons to 8.6 million metric tons. By contrast, the value of Belgium's YTD 2016 steel exports have declined, down 9.4 percent to \$6.2 billion from \$6.9 billion in YTD 2015.

Flat products account for the largest share by far of Belgium's steel exports. In YTD 2016, Belgium exported 6.7 million metric tons of flat products, comprising 78 percent of the country's steel exports by volume. With 881 thousand metric tons, stainless products represented the second-largest share of exports at 10 percent, followed by long products (7%), semi-finished steel (2%), and pipe and tube products (2%).

Steel Exports Report: Belgium

Exports by Top Market

Exports to Belgium's top 10 steel markets represented 87 percent of Belgium's steel export volume in YTD 2016 at 7.4 million metric tons (mmt). Germany received the largest share of Belgium's exports at 32 percent (2.7 mmt), followed by France at 26 percent (2.2 mmt), the Netherlands at 12 percent (1 mmt), and the United Kingdom (0.4 mmt) and Italy (0.4 mmt) at 4 percent each.

Source: IHS Global Trade Atlas
YTD through June

The United States ranked 13th as a destination for Belgium's steel exports, receiving 0.8 percent of exports (71 thousand metric tons) in YTD 2016 — an 8 percent decline from 77 thousand metric tons in YTD 2015.

Trends in Exports to Top Markets

While the volume of Belgium's steel exports increased for eight of its top 10 steel export markets between YTD 2015 and YTD 2016, the overall value of Belgium's steel exports decreased in the nine of the top 10, reflecting the decline in global steel prices. Germany experienced the largest increase (16.2%) in the volume of Belgium's exports in YTD 2016, followed by Poland (16%) and Turkey (14.2%). Only exports to Spain and the Netherlands decreased in volume in YTD 2016, down 2.3 percent and 1.4 percent, respectively.

Among Belgium's top 10 markets, Turkey, Italy, Spain, and the Netherlands saw the largest value decreases between YTD 2015 and YTD 2016 (down 19.2%, 17.5%, 15.1% and 10.7%, respectively). Notably, the value of exports to Belgium's top two markets also declined: exports to Germany fell by 3.6 percent, and exports to France fell 5.2 percent.

Poland was the only top 10 market to see an increase in Belgium's export value in YTD 2016, up 1.4 percent.

Steel Exports Report: **Belgium**

Top Markets by Steel Product Category

Belgium's top export markets by volume vary across types of steel products, though Germany and France held the top two spots in nearly every category. Germany accounted for the largest share of Belgium's exports of flat, long, and pipe and tube products in YTD 2016, receiving 34 percent (2.3 million metric tons), 30 percent (183 thousand metric tons), and 36 percent (52 thousand metric tons), respectively.

France received the largest share of Belgium's exports of semi-finished products at 79 percent (164 thousand metric tons). France also received the largest share of stainless products at 43 percent (382 thousand metric tons). The United States was not a top-five export destination for any product category.

Steel Exports Report: Belgium

Belgium's Import Market Share in Top Destinations

In 2015, the change in the import market share for Belgium's steel products was mixed among the country's top export destinations. Countries with increases in their share of steel imports from Belgium included its top two markets, Germany (up 0.7 percentage points) and France (up 2.5 percentage points), as well as the United Kingdom (up 1.1 percentage points). Small losses in import market share were seen in the Netherlands, Italy, Turkey, Spain, and Luxembourg, each decreasing by less than one percentage point.

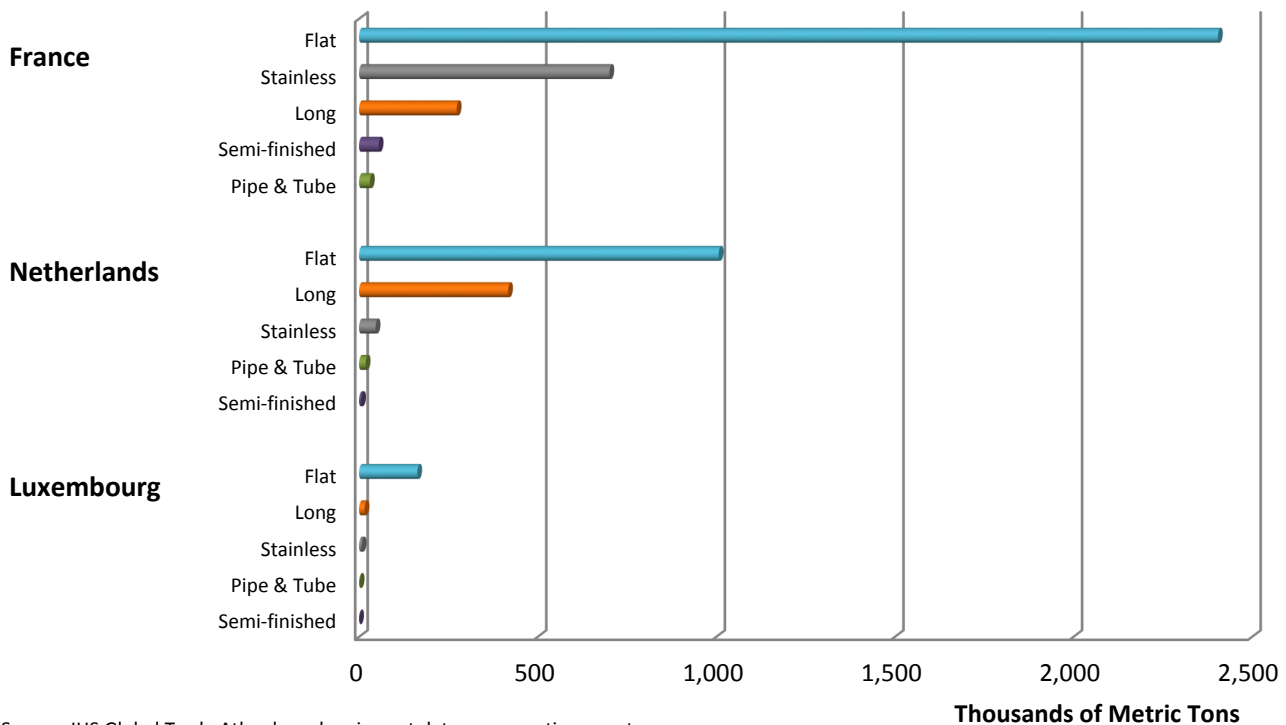

Belgium's Steel Import Market Share				
Top 10 Export Destinations	Share of Imports from Belgium - 2014	Belgium's Rank in 2014	Share of Imports from Belgium - 2015	Belgium's Rank in 2015
Germany	14.3%	1	15.0%	1
France	22.4%	2	24.9%	2
Netherlands	20.4%	2	19.9%	2
United Kingdom	8.2%	5	9.3%	4
Italy	3.3%	10	2.9%	10
Turkey	2.5%	11	2.3%	10
Poland	2.7%	10	3.3%	8
Spain	2.8%	8	2.7%	9
Luxembourg	16.9%	3	16.0%	3
Czech Republic	3.6%	8	3.9%	6

Source: IHS Global Trade Atlas, based on import data per reporting country

Among Belgium's top export markets, France, the Netherlands, and Luxembourg received the largest shares of their steel imports from Belgium. In 2015, flat products accounted for the largest share of steel imports from Belgium in each France (69% or 2.4 million metric tons), the Netherlands (67% or 1 million metric tons), and Luxembourg (87% or 163 thousand metric ton).

In 2015, flat products accounted for the largest share of steel imports from Belgium in each France (69% or 2.4 million metric tons), the Netherlands (67% or 1 million metric tons), and Luxembourg (87% or 163 thousand metric ton).

YTD through June

After increasing by 42 percent from 2009 to 2010, Belgium's crude steel production declined by 9 percent to 7.3 million metric tons in 2012 and remained almost flat through 2015. Production in YTD 2016 was nearly on par with YTD 2015 – increasing by less than 30 thousand metric tons. Despite the fact that production exceeded apparent consumption (a measure of steel demand) by an average of 3.6 million metric tons per year between 2009 and 2015, exports over the same period exceeded Belgium's steel production by an average of 7.4 million metric tons per year. Similar to production, apparent consumption remained flat between YTD 2015 and YTD 2016. As exports increased in YTD 2016 while production was constant, the export share of production increased by nearly 15 percentage points to 220.5 percent.

Top Producers

Belgium's steel production is concentrated among a handful of domestic and foreign-owned companies and is dominated by ArcelorMittal, a leading player in the global steel market and the country's largest producer, accounting for 5 million metric tons of crude steel production, based on available data.

Belgium's Top Steel Producers in 2014

Rank	Company	Production (mmt)	Main Products
1	ArcelorMittal	5	Flat, long, and stainless products
2	NLMK	3-3 (capacity)	Strip products, plate
3	Aperam	1.1	Stainless products

Trade Remedies in the Steel Sector

Antidumping duties (AD), countervailing duties (CVD), associated suspension agreements, and safeguards are often referred to collectively as trade remedies. These are internationally agreed upon mechanisms to address the market-distorting effects of unfair trade, or serious injury or threat of serious injury caused by a surge in imports. Unlike anti-dumping and countervailing measures, safeguards do not require a finding of an “unfair” practice. Before applying these duties or measures, countries investigate allegations and can remedy or provide relief for the injury caused to a domestic industry. The tables below provide statistics on the current number of trade remedies various countries have against steel mill products from Belgium and from the European Union, which includes Belgium.

Steel Mill Trade Remedies in Effect Against Belgium

Country	AD	CVD	Suspension Agreements and Undertakings	Total
Pakistan	1			1
United States	1			1
TOTAL	2	0	0	2

Global Steel Mill Safeguards in Effect

Country	Product(s)
Chile	Steel wire rod
India	1) Seamless pipes, tubes and hollow profiles of iron or non-alloy steel (other than cast iron and stainless steel); 2) Hot-rolled steel in coils
Indonesia	1) Articles of finished casing and tubing; 2) Articles of iron or steel wire; 3) Flat-rolled products of iron or non-alloy steel; 4) I and H sections of other alloy steel
Malaysia	Hot-rolled steel plate
Morocco	1) Cold-rolled sheets and plated or coated sheets; 2) Reinforcing bars and wire rods
Philippines	Steel angle bars
Thailand	1) Hot-rolled steel flat products with certain amounts of alloying elements; 2) Unalloyed hot-rolled steel flat products in coils and not in coils
Ukraine	Casing and pump compressor seamless steel pipes
Vietnam	Semi-finished and certain finished products of alloy and non-alloy steel

Steel Exports Report: Glossary

Apparent Consumption: Domestic crude steel production plus steel imports minus steel exports. Shipment data are not available for all countries, therefore crude steel production is used as a proxy.

Export Market: Destination of a country's exports.

Flat Products: Produced by rolling semi-finished steel through varying sets of rolls. Includes sheets, strips, and plates. Used most often in the automotive, tubing, appliance, and machinery manufacturing sectors.

Import Penetration: Ratio of imports to apparent consumption.

Import Source: Source of a country's imports.

Long Products: Steel products that fall outside the flat products category. Includes bars, rails, rods, and beams. Used in many sectors but most commonly in construction.

Pipe and Tube Products: Either seamless or welded pipe and tube products. Used in many sectors but most commonly in construction and energy sectors.

Semi-finished Products: The initial, intermediate solid forms of molten steel, to be re-heated and further forged, rolled, shaped, or otherwise worked into finished steel products. Includes blooms, billets, slabs, ingots, and steel for castings.

Stainless Products: Steel products containing at minimum 10.5% chromium (Cr) offering better corrosion resistance than regular steel.

Steel Mill Products: Carbon, alloy, or stainless steel produced by either a basic oxygen furnace or an electric arc furnace. Includes semi-finished steel products and finished steel products. For trade data purposes, steel mill products are defined at the Harmonized System (HS) 6-digit level as: 720610 through 721650, 721699 through 730110, 730210, 730240 through 730290, and 730410 through 730690. The following discontinued HS codes have been included for purposes of reporting historical data (prior to 2007): 722520, 722693, 722694, 722910, 730410, 730421, 730610, 730620, and 730660.

Global Steel Trade Monitor: The monitor provides global import and export trends for the top countries trading in steel products. The current reports expand upon the early release information already provided by the Steel Import Monitoring and Analysis (SIMA) system that collects and publishes data on U.S. imports of steel mill products. Complementing the SIMA data, these reports provide objective and current global steel industry information about the top countries that play an essential role in the global steel trade. Information in these reports includes global exports and import trends, production and consumption data and, where available, information regarding trade remedy actions taken on steel products. The reports will be updated quarterly.

Steel Import Monitoring and Analysis (SIMA) System: The Department of Commerce uses a steel import licensing program to collect and publish aggregate data on near real-time steel mill imports into the United States. SIMA incorporates information collected from steel license applications with publicly released data from the U.S. Census Bureau. By design, this information provides stakeholders with valuable information on the steel trade with the United States. For more information about SIMA, please go to <http://enforcement.trade.gov/steel/license/>.
